

# Coronavirus and the ECU2020 convention

The ECU is closely monitoring the possible implications of any further spread of Coronavirus (COVID-19) for ECU2020 and is in touch with the Dutch health authorities about appropriate actions. Our first priority is the health and welfare of delegates.

So far, we have had no advice from the Dutch authorities to cancel or postpone the event, but all intending participants can be assured that we will give immediate notice if we are advised by the authorities that the convention is no longer appropriate in the current environment.

We will use the ECU website, app and social media to provide any updates. In the meantime, we urge members of ECU associations and other delegates to follow current assessments on the WHO website and travel advice from their national governments.
