Adult and Paediatric Dermatology Essentials

**Dr Josie Hutchinson MBChB MRCGP
MSc (derm)**

Webinar Outline

This webinar will explore basic adult and paediatric dermatology issues. Dermatology is a subject that is difficult for many, and this webinar hopes to increase knowledge and confidence when dealing with practical dermatology. Topics covered will include common rashes and skin infections in adults, as well as commonly seen lesions. Paediatric rashes, lesions and infections will also be covered. Dermatology emergencies are rare but are important to recognise, and so red flag skin lesions and rashes will be discussed for both adults and children.

Learning Outcomes

By the end of the webinar you will be able to:

- recognise common adult skin rashes and lesions
- recognise common paediatric skin rashes and lesions
- be aware of red flags and emergencies in paediatric and adult dermatology

Speaker

Josie is a General Practitioner with a specialist interest in dermatology. She studied medicine at Manchester University, graduating in 2009 and finished her General Practitioner training in 2014. She completed a masters in practical dermatology at Cardiff University in 2017. Josie works in a GP practice in Ellesmere Port, Cheshire, and also sits on a medical advisory board for a paediatric medical charity working in rural Uganda, called Medcare. She has three young children and enjoys attending church and rock climbing with her husband in her spare time.
