Information to our members

## **Petra Schweinhardt appointed as Associate Professor of Chiropractic Medicine**

Dear members of ChiroSuisse

It is with great pleasure that I can announce that the University Council of the University of Zurich has appointed PD Dr. med. Petra Schweinhardt, as Associate Professor of Chiropractic Medicine effective 1 September 2022.

After a long vacancy, with an interim appointment by Prof. Dr. med. Armin Curt, this position could now be filled again with a regular chairholder. This is an important milestone in the young history of our university based medical profession.

On behalf of the Executive Board of ChiroSuisse, I congratulate Petra Schweinhardt on this remarkable achievement. We look forward to many years of fruitful collaboration.

Further information and an interview with our new professor will follow after the summer break.

Best wishes!  
Thomas Thurnherr
