

The Association of Italian Chiropractors is proud to present

## Functional Neurology for the Practicing Chiropractor

# FREDERICK CARRICK

**FLORENCE, ITALY**  
**MARCH 14<sup>th</sup>, 15<sup>th</sup> 2026**

**EAC / CPD APPLIED FOR**

### **Frederick (Ted) R Carrick, DC, PhD, MS-HPed**

Dr Carrick is a Harvard Medical School-trained clinical trialist and Professor of Neurology at the University of Central Florida College of Medicine in Orlando, Florida. He is a Professor of Neurology and Senior Research Fellow at the Centre for Mental Health Research in association with the University of Cambridge, Cambridge, UK, and an adjunct Professor at the Massachusetts General Hospital MGH Institute in Boston. Ted holds a DC degree from CMCC in Toronto, Canada, and a PhD from Walden University in Minneapolis, Minnesota (Dissertation: Neurophysiological Implications in Learning). Professor Carrick was a Global Clinical Scholar at Harvard Medical School and has a Master of Science in Health Professions Education degree from the Harvard Macy and MGH Institutes. He holds board

certifications in neurology with fellowship credentials in Neuro-otology, Vestibular Rehabilitation and EEG. He has maintained a consultant specialist practice in functional neurology for 46 years and has been a Medical Educator for 39 years. He is the subject of the Emmy award-winning PBS documentary "Waking up the Brain" as well as countless prime time television, newspaper, magazine and journal articles. He has special interests in movement disorders, traumatic brain injury and sports concussions and has developed novel treatments and patents in these areas.

His publications and affiliations are available at <https://orcid.org/0000-0002-2818-6551>

Professor Carrick may be contacted at: [Drfrcarrick@post.harvard.edu](mailto:Drfrcarrick@post.harvard.edu)

**COURSE DESCRIPTION :** Dr. Carrick will share his experiences in clinical practice and the outcomes of his published research. Participants will participate in an interactive 2-day experience where they will learn and apply skills through practicums designed to promote an ability to utilize current procedures in their practice. This symposium is a blended learning program of lecture and hands on learning that is exciting and fun.

*Participants will be active learners and are expected to be able to utilize the information learned based upon:*

- Understanding, examination, and treatment of Brain Function
- Understanding, examination, and treatment of the Autonomic Nervous System
- Understanding, examination, and treatment of Neurodegeneration
- Understanding, examination, and treatment of Movement Disorders
