From h. 20.00 to h. 22.00

Dr. JOSEPH CANNILLO, D.C.

FUNCTIONAL MEDICINE APPROACH FOR CHIROPRACTORS

TUESDAY, APRIL 14th, 2026: Beyond Structure: Functional Medicine Approaches to Musculoskeletal Health

An advanced webinar exploring how functional medicine reframes musculoskeletal conditions beyond biomechanics. From systemic inflammation and metabolic imbalances to connective tissue integrity and micronutrient status, this session provides chiropractors with a comprehensive model to assess and support patients through an integrative, function-driven approach.

WEDNESDAY, MAY 20th, 2026: The Functional Neurology Paradigm: A Systems-Based Approach to Neurological Disorders

This webinar examines neurological conditions through the lens of functional medicine, focusing on neuroinflammation, gut-brain axis dynamics, mitochondrial function, and biochemical individuality. Designed for chiropractors, it offers practical frameworks to understand and support neurological health beyond symptom management.

MONDAY, JUNE 22nd, 2026: Optimizing Human Performance: Functional Medicine Strategies in Sports Chiropractic

A deep dive into performance-oriented care, integrating functional medicine principles with chiropractic practice. Topics include energy metabolism, recovery optimization, hydration strategies, and resilience to physical stress. Ideal for practitioners working with athletes and active individuals seeking to enhance performance and recovery.
